Sustainable development goals

1. End hunger, achieve food security and improved nutrition and promulgate sustainable agriculture
2. Promote sustainable agricultural production systems
3. Ensure access to affordable, reliable, modern energy services
4. Promote sustainable industrialisation, focusing on droughts, fluvial and flood risks, including poverty, in Africa, Asia, and Latin America and the Caribbean.
5. Promote access to affordable, reliable, modern energy services
6. Promote sustainable industrialisation, focusing on droughts, fluvial and flood risks, including poverty, in Africa, Asia, and Latin America and the Caribbean.
7. Ensure access to affordable, reliable, modern energy services
8. Promote sustainable industrialisation, focusing on droughts, fluvial and flood risks, including poverty, in Africa, Asia, and Latin America and the Caribbean.
9. Build resilient infrastructure, promote inclusive and sustainable industrialisation and economic growth, and foster (SHEAR) for disaster preparedness across all levels.
10. Promote access to affordable, reliable, modern energy services
11. Promote sustainable industrialisation, focusing on droughts, fluvial and flood risks, including poverty, in Africa, Asia, and Latin America and the Caribbean.
12. Ensure availability and sustainable management of water for sanitation and hygiene
13. Ensure availability and sustainable management of water for sanitation and hygiene
14. Promote sustainable industrialisation, focusing on droughts, fluvial and flood risks, including poverty, in Africa, Asia, and Latin America and the Caribbean.
15. Ensure sustainable urbanisation and inclusive, safe, resilient and sustainable settlements
16. Promote sustainable industrialisation, focusing on droughts, fluvial and flood risks, including poverty, in Africa, Asia, and Latin America and the Caribbean.
17. Ensure sustainable urbanisation and inclusive, safe, resilient and sustainable settlements

There are 17 SDGs
What are they?

SDG 1: No poverty
SDG 2: Zero hunger
SDG 3: Good health and well-being
SDG 4: Quality education
SDG 5: Gender equality
SDG 6: Clean water and sanitation
SDG 7: Affordable and clean energy
SDG 8: Decent work and economic growth
SDG 9: Industry, innovation and infrastructure
SDG 10: Reduced inequalities
SDG 11: Sustainable cities and communities
SDG 12: Responsible consumption and production
SDG 13: Climate action
SDG 14: Life below water
SDG 15: Life on land
SDG 16: Peace, justice and strong institutions
SDG 17: Partnerships for the goals

How does our work support UN SDGs?

1. As part of our work for CCRES, we have assessed the impacts of climate change on food production patterns, and the potential to improve climate resilience.
2. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
3. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
4. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
5. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
6. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
7. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
8. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
9. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
10. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
11. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
12. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
13. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
14. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
15. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
16. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
17. We are part of a team assessing the impacts of climate change on food security, and the potential to improve climate resilience.
